### SUMMARY

I am a student in the Information Development Department at ISIGE, graduating in 2026. I am keen to gain hands-on experience in front-end development and building interactive and visually appealing web applications. I am learning and practicing technologies such as Bootstrap, with a focus on writing clean and maintainable code. I am looking for an internship opportunity to enhance my skills in performance optimization, user experience, and cross-browser compatibility. I am passionate about continuous learning and improving my skills in this field.

### PROJECTS

**Quotes:** It's a fairly simple App written with Python using web scraping technology where it takes quotes from a goodreads "[www.goodreads.com](https://www.goodreads.com/)" and gives you a random quote based on the type of your choice (love, live, funny ... ).
