SUMMARY

Passionate and detail-oriented Front-End Developer with a strong foundation in web development and user interface design. Proficient in HTML and CSS, with a growing expertise in JavaScript. Skilled in crafting responsive, visually appealing, and user-friendly websites. Seeking an internship opportunity to apply and enhance my skills in performance optimization, user experience, and cross-browser compatibility. Dedicated to continuous learning and improvement in the field of web development.

PROJECTS

Quotes: It's a fairly simple App written with Python using web scraping technology where it takes quotes from a goodreads "www.goodreads.com" and gives you a random quote based on the type of your choice (love, life, funny ...).

<https://github.com/SN-101/Random-Quotes/blob/master/Quotes.py>

Web Portfolio: This is my personal website which I designed using HTML and CSS and it is also responsive to all screen sizes, there is also animations.

<https://sn-101.github.io/portfolio/>

CV online: it is a website resume created using HTML and BOOTSTRAP it also responsive to all devices and simple understand
