SUMMARY

I am a student in the Information Development Department at ISIGE, I will graduate in 2026. I am keen to gain hands-on experience in front-end development and building interactive and visually appealing web applications. I am learning and practicing technologies such as Bootstrap, with a focus on writing clean and maintainable code. I am looking for an internship opportunity to enhance my skills in performance optimization, user experience, and cross-browser compatibility. I am passionate about continuous learning and improving my skills in this field.

PROJECTS

Quotes: It's a fairly simple App written with Python using web scraping technology where it takes quotes from a goodreads "www.goodreads.com" and gives you a random quote based on the type of your choice (love, life, funny ...).

<https://github.com/SN-101/Random-Quotes/blob/master/Quotes.py>

Web Portfolio: This is my personal website which I designed using HTML and CSS and it is also responsive to all screen sizes, there is also animations.
